<b>Yom 29</b>  <b>5-11</b> <b>Shabbat</b> <b>Count 2</b>	<b>Yom 30</b>  <b>5-12</b> <b>2-day</b> <b>New/Full Moon</b>	<p>Our observance of the new/full moon is better when seeing the rising of the full moon after the sunset to give us the 1<sup>st</sup> day of new month. This calendar is only to help prepare our observance of the next full moon which may not be the same as the estimated 1<sup>st</sup> day of the next month. David is the good example of observing the full moon in the evening after the sunset is out (1 Samuel 20:5, 18, 27). Day 30 is only necessary if the sun is still there when the full moon rises. See the Chodesh page for more understanding.</p>
